We make your stone come alive!

Highly-concentrated quality products from Austria. International References. Professional services carried out by our own teams. Expert knowledge at the Academy.

Finalit is a successful Austrian company that operates on an international level with its focus on the care and protection of stone and tiled surfaces. Finalit offers **products for basic cleaning, special cleaning, impregnation and care**, as well as the **corresponding services**, in both **private and public areas**.

Development of the **Finalit product line** has drawn from the **practical experience of the stonemason's business**. The goal is to solve problems like stains, discolouration of joint edges, coatings or efflorescence **swiftly and efficiently** and to provide long-term protection, slip-resistance, protection against graffiti and much more.

Marina Bay Sands, Singapore

Austrian National Bank, Vienna

The Gate Mall, Qatar

Princess Diana Memorial Fountain, Hyde Park, London

Natural stone, marble, granite, sandstone, lime-stone, artificial stone, tiles, terrazzo, terracotta, concrete slabs - no matter where your problem lies, Finalit has the solution!

Finalit products have been tested by the MA 39 Testing and Research Institute of the City of Vienna and are resistant to UV rays and de-icing salt, safe for food preparation areas, breathable, stain and water-resistant. Treated surfaces are ready for use again after just one hour.

Some of the most prestigious projects include the Saqqara and Cheops pyramids in Egypt, the Princess Diana

Memorial Fountain in Hyde Park, London and the Church of Our Lady in Dresden. Finalit has also been used in Austria to clean buildings such as the Parliament, the new Main Station, the BahnhofCity West and the National Bank of Austria in Vienna. Finalit also protects them against dirt and environmental influences.

Finalit is available in 22 countries with its professional services, and time-tested products whose development is based on decades of stonemasonry experience.

Finalit Academy

The „Finalit Academy“ training facility provides a sound footing for imparting the knowledge required by users of Finalit products. It offers **1-day and 2-day training courses**. The goal of the Finalit Academy is to transform specialists and interested persons into experts and problem solvers.

After the first training course, participants will know how to remove stains, soiling, efflorescence, joint edge discolourations, dull spots and much more **by themselves**. In addition, the Finalit training graduate will know how to give surfaces the correct long-lasting protection that will **prevent further problems!**

Finalit Services - for both private and public projects

Your guarantee for optimal results.

Finalit offers **cleaning, restoration, protection and care** directly on site
by **professionally trained teams**.

Finalit Teams treat:

- soiled surfaces
- efflorescence
- lime, joint edge discolourations
- mould, moss, algae
- stubborn stains such as grease, rust, wine etc.
- coatings
- graffiti
- slippery floors
- ugly streaks caused by poor cleaning
- matt, worn stones etc.

Ask one of our sales representatives for a **non-binding quotation** and a **sample** on site. Decide on our reliable and convenient Finalit cleaning service! Our Finalit team will come directly to you and carry out an effective treatment once they have analysed the problem.

Topics for the **theory & practice training courses**:

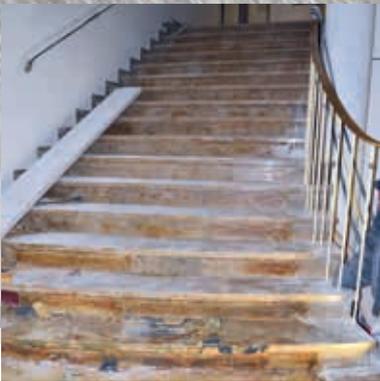

- prevention - pre-treatment to avoid efflorescence and stains
- correct cleaning, stain removal, protection and care
- problem stones brought to the course will be dealt with directly at the Academy
- Certificate of Participation

Impregnation

Marble untreated

Long-term Protection with Finalit

treated with Finalit products

Long-term Protection with Finalit

Finalit Products are professional products!

Finalit Impregnation / Protection

Coverage per litre
Dilutable with water up to

Pre-treatment

No. 21 Fixative Penetrating Stopper

Pre-treatment of absorbent materials before applying Finalit impregnations.
Colour enhancer, hardening and bonding agent.

up to 100 m²
pure

No. 21S Pores Filler (Consolidant for Sandstone/water-based) *

Pre-treatment for highly absorbent materials before applying Finalit impregnations.
Basic protection. Pre-treatment before installation to prevent efflorescence and stains.
Hardening and bonding agent, facilitates grouting, easy removal of grouting residues.
Fungicide (against algae and moss).

up to 50 m²
all sides up to 20 m²
1:1 to 1:3

Premium protection with long-term effect

No. 20 Hot Impregnation *

Colourless protection for all materials. Does not change the look of the treated surface.
Safe for food preparation areas. Resistant to UV rays and de-icing salt.
Recommended pre-treatment: Finalit No. 21 or 21S.

up to 100 m²
pure

Premium protection with colour enhancement

No. 25 Premium-Cool Impregnation with anti-slip effect

Protection, colour enhancer and slip resistance for all materials.
Safe for food preparation areas. Resistant to UV rays and de-icing salt.
Recommended pre-treatment: Finalit No. 21 or 21S.

up to 100 m²
pure

Premium protection

No. 22 Cool Impregnation

Colourless protection for all materials. Does not change the look of the treated surface.
Safe for food preparation areas. Resistant to UV rays and de-icing salt.
Recommended pre-treatment: Finalit No. 21 or 21S.

up to 100 m²
pure

Gloss protection for matt surfaces

No. 23 High-Gloss Impregnation (water-based)

Glossy protection for all materials. Suitable for Marble, Terrazzo, PVC etc.
Adds gloss to matt surfaces. For interior use only!
Recommended pre-treatment: Finalit No. 21 or 21S.

up to 50 m²
1:3

Protective lacquer

Grinding and polishing effect in one step!
Result: natural gloss!

Coverage per litre
Dilutable with water up to

1kg up to 300 m²

Finalit Brushes

Treating scratched, tarnished and soiled surfaces is time-consuming and expensive. **Top results** can be achieved with **Finalit diamond, porcelain & silicon carbide brushes** after just **1-2 work steps**. The brushes are easy to handle (suitable for single disc machines) and can be used for **hard stones** such as ceramic tiles, granite etc. (diamond brush) or **soft stones** such as marble etc. (porcelain brush). Slight scratches can be removed. Matt or fine grinding, gloss or satin finish can be achieved with different **grits - 36 to 2500** - that are used either **wet or dry**.

Diamond brushes for hard stones

- Grit 2500 blue
- Grit 1000 orange
- Grit 320 yellow
- Grit 80 green
- Grit 36 grey

Porcelain brushes for soft stones

- Grit 1000 brown
- Grit 320 pink
- Grit 80 white

Silicon carbide brushes for soft & hard stones

- Grit 80 black

Finalit Product Advantages

Finalit Impregnations are

- plastic-polymer based, highly compatible
- wax, silicone and acrylic free
- breathable
- stain-resistant
- water-resistant – oil-repellent
- resistant to UV rays, de-icing salt and graffiti
- safe for food preparation areas

Finalit Products

- are manufactured in our own facility
- are concentrates, very efficient: 1 litre impregnation does up to 100 m²/l, depending on the absorbency of the material
- based on water can be diluted with water, depending on the degree of pollution
- based on solvents are used undiluted

Finalit Material Card Fan

This unique natural stone and porcelain tile fan reproduces a total of 185 true-to-nature surfaces

Popular natural stones including Chinese materials as well as porcelain tiles, engineered stones and mosaics. On the back you will find the recommended Finalit treatment (cleaning, protection and maintenance) as well as information on the respective material.

Finalit Quality

The high standards of the Finalit Products are verified by several international **expert reports** such as

- Expert report of the MA 39, Testing and Research Institute of the City of Vienna
- Ministry of Antiquities in Cairo
- Setsco Services Pte Ltd. Singapore
- Testing Center for Building Materials in Wismar
- BTI Linz
- EMPA Switzerland etc.

Short extract on International and National Reference Projects

- St. Peter's Cathedral, Vatican
- Mecca, Kingdom of Saudi Arabia
- British Museum, London, United Kingdom
- Sphinx, Egypt
- Albertina, Vienna, Austria
- Schönbrunn, Vienna, Austria etc.
